

**ISN SMALL CONFERENCES FINAL REPORT:**

**IV FRONTIERS IN NEUROSCIENCE**

**a. Basic information (title of the meeting, dates, organizer, venue, etc.)**

Title of the meeting: IV Frontiers in Neuroscience

Dates: from 22-25 October

Organizers: Patricia Garcez (UFRJ); Joice Stipursky (UFRJ); Roberto Lent (UFRJ); Fernanda Tovar-Moll (IDOR/UFRJ)

Venue: Hotel Alantico Buzios – Buzios – Rio de Janeiro - Brazil

**b. Registration and registration fees (brazilian reais)**

Registration: <http://www.idor.org/eventos/iv-international-symposium-frontiers-in-neuroscience>

Registration Fees:

- Undergrad student: R\$ 50

- Grad student: R\$ 150

- Post-doc: R\$ 200

- Researchers: R\$ 250

**c. Program:**

Sunday, October 22nd

5:30 pm: Opening Remarks: Roberto Lent (ICB-UFRJ, Brazil)

6:00pm: Opening Conference: David Fitzpatrick (Max Planck Florida, USA)  
“Functional synaptic architecture of neural circuits in visual cortex”

7:30 pm: Cocktail and get together

Monday, October 23nd

Session 1: Brain Development

Chairs: Patricia Garcez (ICB-UFRJ, Brazil) and João Menezes (ICB-UFRJ, Brazil)

9:00 am: Zoltán Molnár (University of Oxford, UK): “Cerebral Cortex Development and evolution”.

9:30 am: Simon Hippenmeyer (IST, Austria): “Molecular Mechanisms of Neural Stem Cell Lineage Progression”.

10:00 am: Coffee break

10:30 am: Laurent Nguyen (University of Liège, Belgium): “The unfolded protein response controls cortical neurogenesis - From Elongator to ZIKA-induced microcephaly”.

11:00 am: Joice Stipursky (ICB/UFRJ, Brazil): “Neurovascular interactions in the developing brain”.

11:30 am: Simoni Avansini (Department of Medical Genetics, University of Campinas, Brazil): “Dysregulation of NEUROG2 by miR-34a in focal cortical dysplasia, key players in neuroglial differentiation.”

11:45 am: Bruna Teixeira Silva (Department of Neurobiology, UFF, Brazil): “Caffeine intake during lactation: and its effects on the development of the visual system and behavior of rats’ offspring.”

## Session 2: Cognitive Neuroscience

Chairs: Jorge Moll (IDOR) and Fernanda Tovar-Moll (UFRJ/IDOR)

4:00 pm: Ronald Fisher (Victoria University of Wellington, New Zealand): “Cognitive and emotional dynamics of social rituals”.

4:30 pm: Jorge Moll (IDOR, Brazil) “ Neural correlates of human values and motivations ”

5:00 pm: Tarek Sharshar (Institute Pasteur, France): “Clinical and morphological biomarkers of cognitive decline after sepsis”.

5:30 pm: Break

6:00 pm: Rogério Panizzutti (ICB-UFRJ, Brazil): “Cognitive training induces plasticity in schizophrenia biomarkers.”

6:30 pm: **Linda Scoriels (ICB-UFRJ, Brazil)**: “Effect of an auditory versus visual neuroplasticity-based cognitive training on cognition, emotion, symptoms, and quality of life in people with schizophrenia.”

6:45 pm: **Luís Eduardo Santos (Instituto de Bioquímica Médica-UFRJ, Brazil)**: “Boosting monominergic signalling counteracts cognitive and non cognitive symptoms of Alzheimer’s disease.”

7:30 pm: International Opportunities: Meet the Institutes

Chair: Roberto Lent (Brazilian Network of Science for Education/ ICB-UFRJ, Brazil)

Speakers:

Andrea Chiba, (University of California San Diego, USA)

David Fitzpatrick, (Max Planck Institute Florida, USA),

Fernando Cardenas (Universidad de Los Andes, Colombia)

Ronald Fischer (Victoria University of Wellington, New Zealand)

Hans Ulrich Dodt (Center for Brain Research, Medical University of Vienna, Austria)

Zoltán Molnár (University of Oxford, UK)

Tuesday, October 24nd

Session 3: Cellular Neuroscience

Chair: Cecília Hedin-Pereira (FIOCRUZ/RJ, Brazil)

9:00 am: Marilia Zaluar (UFRJ/IDOR, Brazil): "Toward a cellular human model to study nociception"

9:30 am: Babette Fuss (Virginia Commonwealth University, Richmond, USA): Extracellular cues regulating oligodendrogenesis and myelination"

10:00 am: Coffee break

10:30 am: Helen Stolp (Royal Veterinary College): "Neurogenic niches in the brain: help and hindrance of the barrier systems."

11:00 am: James Schummers (Max Planck Florida, USA): "Cellular Organization of Cortical Circuit Function"

11:30 pm: Sheila Espírito Santo Araújo (ICB-UFRJ, Brazil): "Central pathways and synapses under a demyelinating and inflammatory focus."

11:45 pm: Juliana Vasques (UFRJ, Brazil): "Role of APP in rat visual system plasticity."

Session 4: Neurobiology of Disease

Chairs: Débora Foguel (UFRJ, Brazil) and Fernando Bozza (Fiocruz/IDOR, Brazil)

4:00 pm: Simone Englender (Technion-Israel Institute of Technology, Israel): "Role of post-translational modifications on a-synuclein degradation and aggregation in Parkinson's disease."

4:30 pm: Fabrice Chretien (Institute Pasteur, France): "Microglia activation during sepsis".

5:00 pm: Fernando Cendes (University of Campinas): "Abnormal connectivity in patients with focal epilepsy."

5:30 pm: Break

6:00 pm: Alexandre F. M. Da Silva (University of Michigan, USA) "Molecular mechanisms of migraine attacks in vivo".

6:30 pm: Matias Saavedra (Department. of Cellular & Molecular Biology, Pontificia Universidad Catolica de Chile, Chile): "Voluntary running triggers an endogenous mechanism of brain repair within the Snf2h-null ataxic cerebellum."

6:45 pm: Patricia Alves Reis (FIOCRUZ/RJ, Brazil): "Neuronal dysfunction during experimental cerebral malaria: excitotoxicity and memantine as a therapeutical approach to prevent cognitive impairment."

7:30 pm: Meet the Scientist (Invited speakers meet students – registration needed)

9:00 pm: Social Event

Wednesday, October 25nd

Session 5: Learning and Memory

Chairs: Roberto Lent (Brazilian Network of Science for Education/ ICB-UFRJ, Brazil) and Olavo Amaral (UFRJ, Brazil)

9:00 am: Andrea Chiba (UCSD-USA): "Attention modulation in associative learning and spatial orienting".

9:20 am: Akaysha Tang (The University of Hong Kong): "Towards EEG-based source imaging in real world learning-challenges and progresses".

9:40 am: Andrea P Goldin (Universidad Torcuato Di Tella, Argentina): "Applying educational neuroscience to the real world".

10:00 am: Victor Minces (UCSD-USA): "Music in Schools. Role of Music in Developing Cognition and Motivation."

10:20 am: Michael S. C. Thomas (Birkbeck, University of London, UK): "Challenges and opportunities in translating neuroscience findings into education".

10:50 am: General Discussion

11:10 am: Coffee break

11:30 am: Fernando M. Louzada (Universidade Federal do Paraná, Brazil):  
“Targeted memory activation during sleep”.

12:00 am: Lucas Mongiat (Departamento de Física Médica, Centro Atómico Bariloche, Argentina): “Processing of information by dynamic neuronal circuits subjected to adult neurogenesis”

12:15 pm: Felipe Pegado (University of Leuven, Belgium): “Neuroscience-informed intervention modulates a deeply rooted brain mechanism in a fast and long-lasting way”.

12:30 pm: General Discussion

12:50: Closing Remarks

**c. Speakers:**

1. Akaysha Tang (The University of Hong Kong): Towards EEG-based source imaging in real world learning-challenges and progresses”.
2. Alexandre F. M. Da Silva (University of Michigan, USA) "Molecular mechanisms of migraine attacks in vivo".

**e. Plenary Speaker**

David Fitzpatrick (Max Planck Florida, USA) “Functional synaptic architecture of neural circuits in visual cortex”

**f. Highlight of the meeting**

The highlights of the meetings was to attract a very international speakers and public to Brazil. We had participants and speakers from more than 10 countries altogether. From South America (Argentina, Brazil, Chile, Colombia), USA, Europe (Austria, Belgium, France and UK), Israel and New Zealand.

The opening lecture from David Fitzpatrick and the International Opportunities session Chaired by Roberto Lent (Brazilian Network of Science for Education/ ICB-UFRJ, Brazil) were the highlighted sessions according to participants.

Speakers:

Andrea Chiba, (University of California San Diego, USA)

David Fitzpatrick, (Max Planck Institute Florida, USA),

Fernando Cardenas (Universidad de Los Andes, Colombia)

Ronald Fischer (Victoria University of Wellington, New Zealand)

Hans Ulrich Dodt (Center for Brain Research, Medical University of Vienna, Austria)

Zoltán Molnár (University of Oxford, UK)

**g. Participants**

92 graduated students, 104 undergraduated students, 25 Researchers (postdocs and professors), 32 Speakers, 10 Chairs

**h. Material distribution**

Printed programe

**i. Social events**

There were two social events, and open cocktail in the first day and a closing party on the last evening.

**j. Travel awards**

The scientific committee selected 10 abstracts from **early career scientists** to receive travel awards, hotel accommodation and to give a short talk:

**Developmental Neurobiology:** Simoni Avansini (Sao Paulo – Brazil)/ Bruna Teixeira Silva (Niteroi – Brazil)

**Cognitive neuroscience:** Linda Scoriels (Rio de Janeiro - Brazil) / Luís Eduardo Santos (Rio de Janeiro - Brazil)

**Cellular Neuroscience:** Sheila Espírito Santo Araújo (Rio de Janeiro Brazil)/ Juliana Vasques (Rio de Janeiro - Brazil)

**Neurobiology of Disease:** Matias Saavedra (Chile) / Patricia Alves Reis (Rio de Janeiro - Brazil)

**Learning and Memory:** Lucas Mongiat (Argentina) / Felipe Pegado (Belgium)

Travel award included USD350,00 and hotel accommodation from 22nd to 25th October 2017.

**k. Travel subsidies for Invited Speakers/Plenary Speakers**

All speakers have traveled with their own expenses.

**l. Sponsorship**

We got support from ISN, Company of Biologist, CAPES, IDOR and Brazilian Network of Science for Education (CPE)

**m. General budget; detailed ISN budget, how the ISN funds were utilized**

**p. Comments of at least 3 attendants about the Meeting**

Comment 1: Really great event! The longer pause in lunch time was a very smart choice, bringing freshness for the afternoon (and informal meetings during lunch time)!

Comment 2: The Symposium was great in my opinion, in many aspects. I would like to give some suggestions about the " Meeting the Institutes", that could be in a bigger place and maybe the speakers could use a mic, cause it was harder to hear what they were saying, it was not comfortable. About the " Meeting the Scientist" : In my opinion all the speakers could be there and not only that was previously subscribed to meet, like that the communication would be easier, many people awakened to meet the scientists after the talks and didn't know how to do.

Comment 3: I Missed poster presentations in the Symposium, usually it's a great moment to know about other researches. Since most of participants are researchers, it could enrich the experience. It was a pleasure to be part of this amazing congress. Looking forward to 2019!!
