15. Confirmation of the use of the provided ISN slides to inform the audience on ISN

and on the benefits of an ISN membership.

A presentation using the ISN slides was done during the opening session, at 17h, on September 1st. We also announced the Special Issue of the Journal of Neurochemistry for the Synuclein meeting. This can be confirmed by senior members of ISN present at the meeting, including the editorial board of the Journal of Neurochemistry.

16. Confirmation of the posting of information on the ISN supported event on the ISN Social Media channels before the event took place.

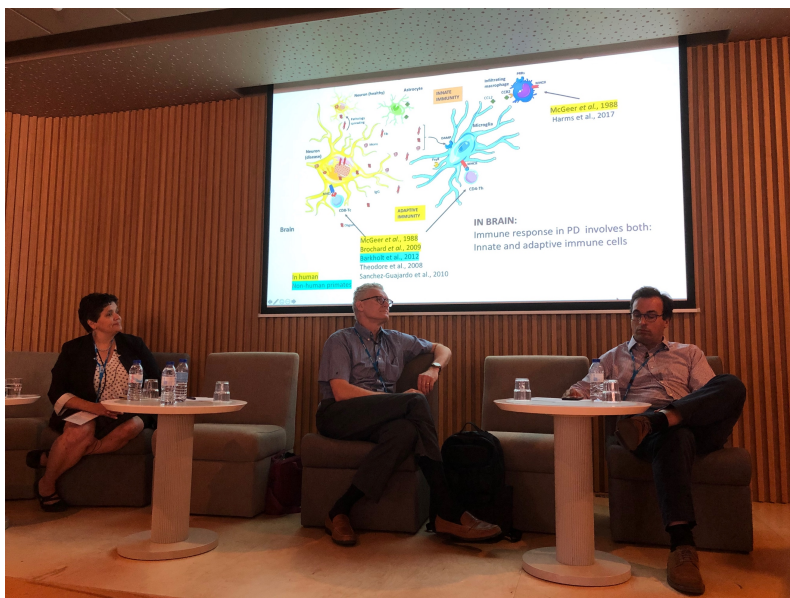

The meeting was on Twitter @Synuclein2019, and the support of ISN is also acknowledged at synuclein.org

17. Confirmation of the posting of some concluding statements with pictures on the success of the ISN supported event on the ISN Social Media channels after the event took place.

Several pictures were posted on Twitter during the event. Additional pictures were on synuclein.org, and were also distributed among the participants.

19. Comments of at least three attendants about the Meeting

Dr. Jeff Kordower, Chicago, USA

Congratulations on a wonderful meeting and for bravely challenging the norm with regards to format. The meeting was wonderful and I learned a lot. I hope you found my contributions useful. As a metric for success, I created 3 collaborations; one with Warren Hirst, One with Dave Sulzer and Wolfgang Oertel, and one potential one with Anders. I do not think I have ever had such good fortune at one meeting in my career!!

Dr. Ronald Melki, France

I wanted to thank you once again for your very kind invitation and for the great meeting you set. I heard some people were surprised by the format. I found it incredibly intelligent. Even if we do not agree on everything, it is important we understand what leaders in the field think and diversity is definitely wealth. Thank you therefore for this intellectually challenging meeting. I did not miss a single session

(the last part of the last session, I have to admit). This was sincerely fantastic and you know that I mean it.

Dr. Salvador Ventura, Spain

Just a short note to thank you again for the invitation to the meeting. It was really great, I learned a lot!

Dr. Erik Stoops, Belgium

I think we had a good meeting in Porto, and I appreciated the nice environment (hotel & region) and friendly people.

Nevertheless, a few suggestions for next meeting:

- 1) I heard many times questions regarding the methods used; “we should need more methods”; or “how did you perform this or that method?”
I can imagine to dedicate a dedicated session to methodologies in next congress; can go over different fields , obviously biomarkers can be part of this section..
Something to think about.
- 2) Detail but important: the name on the congress lanyard was far too small. I think many people could not read it; it makes life easier to approach people.
